

ROTORUA

Education
NETWORK

Who is REN?

The Rotorua Education Network (REN) is a *first of its kind* tourism collective solely dedicated to the education industry.

Formed by 4 tourism partners in 1997 to provide quality out of classroom experiences for students nationwide, the group has now grown to include 13 quality, key Rotorua based tourism businesses encompassing cultural, geothermal, natural environment, transportation, accommodation and adventure elements.

REN's aim is to add value to what is taught in the class by providing a practical and hands-on understanding.

What can we do for you?

- Provide resource for both teachers and students, up-to-date information and statistics linking directly to curriculum
- Organise and book itineraries specific to your needs including accommodation and transportation
- Arrange speakers with tourism marketing staff or appropriate people with a working knowledge of the industry
- Save you time and money by booking through one source rather than 13 individual attractions.

ROTORUA

Education NETWORK

We are not just Geography

We are currently developing resources and itineraries relevant to further NCEA subject fields. We can work with you to design itineraries specific to you and your students' requirements.

What you say about us!

"I have utilised the Network's services for every Rotorua field trip since 1997.

The curriculum aligned product ensures a defined learning outcome for my students and being able to book all the attractions and accommodation at one source saves me time. It really is a one stop shop."

Cheryl Osborne - Epsom Girls Grammar Teacher and Auckland Geography Teachers Association (AGTA) spokesperson.
